

## ENGINE

### 1AZ-FE AND 2AZ-FE ENGINES

#### ■ DESCRIPTION

- The 1AZ-FE engine, which is an in-line, 4-cylinder, 2.0-liter, 16-valve DOHC engine, based on the 1AZ-FE engine on the current RAV4.
- The 2AZ-FE engine, which is an in-line, 4-cylinder, 2.4-liter, 16-valve DOHC engine, based on the 2AZ-FE engine on the current Previa.
- These engines have following features that have been optimized in order to realize the further improvement of the engine performance, fuel economy and to reduce exhaust emissions.
  - The PS (Planetary reduction Segment conductor motor) starter has been adopted.
  - Meets the European STEP III regulation requirements
  - ETCS-i (Electronic Throttle Control System-intelligent) has been adopted.
  - VVT-i (Variable Valve Timing-intelligent) system is used.
  - A big bore/long port intake manifold is used.
  - A balance shaft is used.
